DETAILED ACTION

Election/Restrictions

1. Applicant's response to the Restriction Requirement and the election of the invention of Group I filed on 06/30/2005 is acknowledged.

Examiner's Statement Of Reason For Allowance

2. The following is an examiner's statement of reasons for allowance:

Claims 49-52, 56, 58, 59, 61, 62, 63, 65, 67, 69, 71, 73, 75, 78, 81, 84, 85, 88, 90, 91, 93, 94, 96 and 102-108 are allowed.

Regarding claim 49, the prior art of record does not teach all the combined steps for a method for reducing bending vibrations in at least one rotary cylinder of a processing machine, including the steps of predicting a sequence of the signals as a function of the angle of rotation position of the cylinder, and charging the actuator with said sequence of signals in a periodically repeating pattern.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art of record does not teach all the combined elements, components and steps as discussed above in the "examiner's statement of reasons for allowance". In order to expedite prosecution of the case, the examiner's amendment was necessary in order to overcome the prior art.

Art Unit: 2854
